### **Proyek Listrik Panas Bumi Sarulla Mencapai Operasi Komersial Penuh Sarulla Geothermal Power Project Achieves Full Commercial Operation**

**Jakarta-** Sarulla Operations Limited (SOL) akhirnya telah mencapai status operasi komersial penuh dari 3 x 110MW Proyek Pembangkit Listrik Tenaga Panas Bumi, setelah operasi komersial pembangkit ketiganya pada 4 Mei 2018. Sebelum Penyelesaian Unit-3 ini di lapangan Namora-I-Langit, SOL memulai operasi komersial Unit-1 di Silangkitang dan Unit-2 di Namora-I-Langit masing-masing pada Maret 2017 dan Oktober 2017.

Penyelesaian yang berhasil dari unit ketiga ini menandai pencapaian besar proyek geotermal terbesar dalam satu kontrak..

"Kami sangat bangga dapat melaksanakan proyek geothermal 330MW dengan sukses, memenuhi komitmen kami kepada Pemerintah Indonesia dan memberikan kontribusi pada tujuan strategis nasional untuk menyediakan listrik dari energi terbarukan." Ucap Shinichi Aburaya, Kepala Eksekutif Sarulla Operations Ltd.

Sarulla Geothermal Project, berlokasi di Sumatera Utara – Indonesia, berada dalam wilayah kontrak di bawah Kontrak Operasi Bersama dengan PT. Pertamina Geothermal Energy (PGE) dan Energy Sales Contract dengan PT. Perusahaan Listrik Negara (PLN). Proyek ini disponsori oleh konsorsium PT Medco Power Indonesia, ITOCHU Corporation, Kyushu Electric Power Co. Inc., Ormat Technologies, Inc. dan Inpex Corporation.

**Jakarta-** Sarulla Operations Limited (SOL) has finally achieved its full commercial operation status of its 3 x 110MW Geothermal Power Plant Project, following the commercial operation of its third power plant on May 4, 2018. Prior to this Unit-3 completion at Namora-I-Langit field, SOL started commercial operations of its Unit-1 in Silangkitang field and Unit-2 in Namora-I-Langit field in March 2017 and October 2017 respectively.

The successful completion of the third unit marks the great achievement of the largest geothermal project in a single contract.

"We are very proud of delivering the 330MW geothermal project successfully, fulfilling our commitment to the Government of Indonesia and contributing to the national strategic objective of providing electricity from renewable energy." Said Shinichi Aburaya, Chief Executive of Sarulla Operations Ltd.

Sarulla Geothermal Project, located in North Sumatra - Indonesia, is within the contract area under the Joint Operating Contract with PT. Pertamina Geothermal Energy (PGE) and Energy Sales Contract with PT. Perusahaan Listrik Negara (PLN). This project is sponsored by a consortium of PT Medco Power Indonesia, ITOCHU Corporation, Kyushu Electric Power Co. Inc., Ormat Technologies, Inc. and Inpex Corporation.
